PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in building responsive web applications, dynamic internal tools, and bilingual (RTL/LTR) user interfaces. Skilled in translating product briefs into functional, production-ready digital solutions with high attention to layout hierarchy, code quality, and performance. Passionate about leveraging modern web technologies and intelligent features to deliver scalable products tailored to the Saudi market context.

PROFESSIONAL EXPERIENCE

Software Development Intern - Emerging Business Technologies CO. (EBTCO) 06/2026 – 08/2026

- **Ain Kiosk Project (Visitor Experience Lead):** Led end-to-end visitor UX for a smart reception system. Designed and implemented complete Arabic/English RTL bilingual interfaces, custom user flows, Receptionist Desk Mode, and automated print integration. Focused heavily on visual hierarchy and layout clarity for professional environments.
- **Web App & Internal Tool Development:** Designed and built a dynamic Help Desk Scorecard Dashboard demo with real-time data visualization components. Maintained responsive design across screen sizes and optimized rendering performance.
- **Cloud Architecture & Infrastructure:** Administered Microsoft Azure (AZ-104) environments by provisioning virtual machines, configuring secure networks, and optimizing cloud storage, ensuring **99.9% environment uptime** and streamlining team workflows.
- **AI Integration & Workflow Optimization:** Leveraged LLM integrations and GenAI workflows (Gemini API) to automate core application features, reducing feature deployment time by **35%** and accelerating web page creation.

PROJECTS & HACKATHONS

Darbak.AI Intelligent Career Guidance & Job Readiness Platform 01/2025 – 12/2025 | Riyadh

- Developed an AI-powered platform connecting university talents with job market needsusing Python, Flask, HTML/CSS, JavaScript, and Google Gemini API.
- Implemented a smart readiness engine that evaluates students against global CC2020 industry standards and outputs dynamic radar charts.
- Designed an intuitive portal for employers to filter verified candidates and automate professional outreach.
- Architected scalable and reusable backend components in Python with comprehensive documentation to ensure seamless product extensions.

Hassen (حَصِين) — FinTech Compliance & Data Privacy Platform 06/2026 – 07/2026 | Riyadh
Amd Hackathon Finalist - Tuwaiq Academy

- Qualified as a Finalist at Amd Hackathon by co-developing an AI solution that automates financial compliance (SAMA, ZATCA, SDAIA PDPL) and reduces document processing errors for banking systems.
- Designed the complete UI/UX, interactive dashboards, and bilingual user journeys for compliance officers and corporate clients to streamline document review and data masking.
- Developed and integrated the core AI and OCR models for automated document auditing, entity recognition, and real-time sensitive data redaction.

CORE SKILLS

Programming Languages
Python, JavaScript (ES6+), C#, Java, SQL

Frameworks & Web Tech
React, Node.js, Flask, HTML5/CSS3, RESTful APIs.

Tools & UI/UX Design
Responsive Web Design, Cross-Browser Testing, RTL/LTR Bilingual Design, Git/GitHub, Technical Documentation.

AI & Cloud Engineering
LLM Integration, Google Gemini API, Prompt Engineering, Microsoft Azure (AZ-104), OCR Systems.

EDUCATION

Bachelor of Computer Science 2022 – 2026 | Riyadh, KSA
Arab Open University

AWARDS AND HONORS

Kuwait AI Hackathon (GCC Level) 01/10/2025
1st Place across the Gulf Cooperation Council (GCC) countries.

CERTIFICATES

- Generative AI Workshop Certificate
- Miyathon 3 Digital Bootcamp Certificate — Saudi Water Innovation Center (SWIC)
- Huawei Industry Program Developer Certificate — Huawei
- Artificial Intelligence Fundamentals Certificate

LANGUAGES

- Arabic
- English
